

OVERVIEW

Blue Wolf's small thin Step Light can be fixed in place easily by two screws for areas requiring illumination. Made out of a durable 6061-T6 aluminum construction, this small 10 LED light has a wide 90 x 110 degree LED illumination beam and can easily be mounted in almost any location. It is both IP67 rated and MIL-STD-810G tested. This light is perfect for any civilian or military application requiring an LED lighting upgrade. No wires can be seen with this light, as they all pass through out the back center of the light making this a nice, clean, and ergonomic panel mount/wall mount LED lighting product.

This Pod Light looks sleek in design while utilizing minimum mounting space with its small profile. It's perfect for any cockpit, boating, ground vehicle, cargo bay area, military land vehicle, or tank that requires unique LED lighting.

DESCRIPTION

Technical Data

- Voltage: 28 Vdc
- Current: 50 mA@28Vdc
- Operating Temp: -40° to 122° F
- Mass: 1.1 oz.
- Material: Anodized Black 6061-T6 Aluminum
- DOD-160 section 8 compliant
- MIL-STD-810G Tested
- MIL-STD 3009 compliant if NVIS White/NVG color option is chosen
- IP67 water rated

Operating Features

- Thin profile
- Hidden Wires
- Low heat output (LED Light)
- Designed and Manufactured in the USA

QUICK SPECS

- 40K Hour Life Span
- IP 67 Water Rated
- Many Color Options
- Customization available upon request
- 28 Volt DC low power
- Versatile Mounting
- Black Anodized Aluminum

NVIS White color option allows for easy viewing without "greening out" important indication colors such as "reds" and "yellows"

APPLICATIONS

PART NUMBER:

- BW-A230-NVIS WHITE
- BW-A230-NVG Green
- BW-A230-White
- BW-A230-Red
- BW-A230-IR
