TAMIKIN provides the ability to enhance Tactical Combat Casualty Care (TCCC) from Point of Injury to transfer of higher care. This all-in-one system allows you to build multiple PR Scenarios and create realistic Full Mission Profile (FMP) with reactive patients. TAMIKIN is designed for both classroom settings, Trauma Lanes and field training scenarios. Multiple appendages present a variety of wounds including gunshot, blast and burns to provide full mission profiles in combat scenarios. Durability and realism make TAMIKIN a cost effective, educational trauma training tool capable of surviving the rigors of TCCC, APT and Tactical Medicine.

**FEATURES**
